Portfolio Session: Spend a day in our studios creating your own portfolio. On this day you will act the Stylist and Make-up Artist! This shoot is all about you, and we teach how to not only choreograph a shoot but also what is expected of you as an industry professional. You will need to create a minimum of one makeup look to complete the course, however for your own portfolio we recommend two looks to kick start your portfolio. For your portfolio we will choose the best two for your portfolio which will be professionally edited. As we say the two looks is ideal, we can give you up to 4 images as part of your course. If you would like to purchase more images, we can have them professionally retouch at £20 an image. So for the competent makeup artist you could potentially create up to 3-4 looks within the time frame.

### What the course includes:
